Venables Home School Liaison

Literacy: This week in Literacy we will be writing imagery poetry using similes, metaphors and personification. We will spend the first week investigating the features of good poems and starting to plan and write our own poems.

Maths: This week we will move on our measurement work onto conversions. We will investigate how to convert for cm to m, from ml to l, m to km and using formulae to calculate trickier conversions.

Creative: This week we will continue to work on our Art Exhibition pieces. We will be investigating pointillism and the artists associated with this type of art.

Music: **Guitars need to be in school on Wednesday.**

PE: Indoor and Outdoor PE kits should be in school.

Spellings: We have changed the way we are going to complete our spellings for the next term, all children have been sent home 10 spellings to learn ready for the spelling test on Monday. They also need to find 5 additional words that abide by the same spelling rule as they are learning. All 15 spellings will also need sentences to go with them, to show they understand how to use the word in their writing.

Year 6: We will be completing some old sats papers in school this week and will send some home for homework on Thursday.

Any questions, please come and see me after school.
