

Home School Liaison

Week beginning Monday 22th July 2019 Class Lucas Year 2

Numeracy

This week in numeracy we will be completing different activities on all aspects of mathematics. **To support your child at home, help them to consolidate the facts for the 2, 3, 5 and 10 times tables.**

Literacy

This week we will be finishing off activities. **To support your child at home, please hear them read regularly.**

There are still a number of Mr Men books missing from our collection, please check for these at home.

Although, your child will not have a school book over the summer holidays please maintain their regular reading. The local libraries are an excellent source for books along with summer reading challenges to be completed. ☺

Please have a wonderful, safe holiday and return in September refreshed for the new year ahead. You will all make fantastic Year 3's!
